Planning & Design Keter high-quality products are designed for long-lasting use that can be repurposed later and are shipped in unique space-saving and eco-friendly flat packaging.

Responsible Manufacturing Solar power and fully automated processes help us manufacture sustainably and responsibly.

Long Lasting usage We don't believe in single-use plastic. Our products are designed to serve you well for the long run.

Raw Materials As the largest user of recycled plastic in the industry, we source from post-consumer, post-industrial, domestic and even ocean waste. Today we use 40% recycled plastics, and our goal is to use 80% by 2028.

Packaging Made from eco-friendly recyclable materials, our flat packages are compact which allows us to ship more products in less space.

Recyclability Our products are designed to be recyclable and with your help, turned into new products after they've served their purpose.
